

## Getting Started with Saviynt Identity Cloud

### Training Datasheet

Authored by: Saviynt University

### Course Overview

Getting Started with EIC is exclusively tailored for implementation specialists, managers, and cybersecurity leaders within the Saviynt partner network. This in-depth course will walk you through quick-start tutorials on Enterprise Identity Cloud's IGA, PAM, AAG, and External solutions. You will learn about the critical use cases of these solutions and how to implement them.

It includes demonstrations of User Import, Application Onboarding, Access Request System, Access Reviews, Control Center, PAM Credential Management, Segregation of Duties, External Identity and Resource Management, and more.

This course will familiarize you with Saviynt's Business Value Analysis (BVA) tool.

#### Course Duration

- 10.5 CPE hours of on-demand video content

#### Target Audience

- IAM Managers & Sr. Managers
- Identity Practice Leads
- Saviynt Architects and Consultants

#### Delivery Methods

- Self-paced only

#### Prerequisites

- This training course has no prerequisites.
