

SOLUTION GUIDE

Saviynt Higher Education Solutions for Microsoft

Saviynt EIC Provides Intelligent Identity Governance to Complement and Enhance the Value of Your Microsoft Investments.

As the industry's #1 converged identity platform, Saviynt's Enterprise Identity Cloud (EIC) provides intelligent identity governance to enhance the value of your Microsoft investments. Saviynt partners with Microsoft to help education institutions, governments and enterprises manage roles and permissions with fine-grained provisioning.

Virtually every organization has significant Microsoft investments to power workflow processes and enable users. Identity is considered a critical attack vector requiring enterprise-class solutions to identify risks, manage user access, and improve the efficiency and effectiveness of access management programs.

Manage and Secure Active Directory Domain Services and Microsoft Entra ID

Enhance productivity, reduce risks and unify administration of your hybrid AD environment.

Group Management

Use Saviynt's built-in compliance frameworks to apply governance for groups that have access to sensitive data, roles, or applications. Seamlessly manage complex identity use cases, such as student/faculty or faculty/alumni IDs.

User Provisioning

Extend user provisioning to all applications and authentication platforms with full identity lifecycle management and auditing capabilities. Ensure students, faculty, researchers, and staff can access the resources they need while minimizing the burden on IT.

Access Requests

With Saviynt's intelligent and versatile Identity Warehouse, you can enhance access request and certification processes with rich, actionable risk insights.

Maintain Continuous Compliance

Mitigate risks in real-time and gain granular visibility into the entire ecosystem. Protect student and staff personal information, as well as confidential intellectual property.

Accelerate adoption of Microsoft Entra AD & Microsoft 365

Manage roles & permissions with fine-grained provisioning

Enforce segregation of duties between roles and functions

Govern all human and machine identities in one cloud platform

Embrace digital transformation with our FedRAMP Moderate ATO authorized platform

Enhance Entra External ID

Saviynt Third Party Access Governance (TPAG) helps organizations manage third party identities, including suppliers, contractors and partners.

Microsoft Entra ID + Saviynt Enterprise Identity Cloud is a Complete Identity Solution	 Microsoft	Better Together	 SAVIYNT
